***March 23, 2020 Update Childcare Needs for Essential Healthcare Workers Letter***

The state government is asking schools to reach out to parents that are essential healthcare workers and first responders. Essential healthcare workers may include licensed health professionals such as physicians, nurse practitioners, physician assistants, registered nurses, LPNs and nurse assistants or laboratory personnel. First responders may include paramedics, emergency medical technicians, police officers and firefighters.

If you are working in any of these professions and having issues with childcare, please fill out the form in the link below or contact Christina at 518-644-2400. We will take down your information and try to assist you to fill these childcare needs.
